PROFESSIONAL EXPERIENCE

Graphic Designer |TekWissen Software Pvt. Ltd. ***December 2025 – Present***
Visakhapatnam

- Develop visual communication assets, creative campaigns, and motion-based content for social media and digital platforms.
- Create scalable enterprise presentation systems and reusable master slide templates for high-value client pitches.
- Collaborate with cross-functional teams on branding, corporate communications, and digital design initiatives.
- Leverage AI-assisted creative workflows to improve design efficiency and accelerate content production.

UI/UX Designer & Developer | Intexm Media Private Limited ***June 2023 – April 2025***
Visakhapatnam

- Contributed to the design strategy of fintech platforms including Turbo Paisa, CredBuddha, LowCredit, KeyToLoans, and LendingInd.
- Designed conversion-focused landing pages, interactive experiences, and gamified engagement features.
- Created marketing campaigns, promotional creatives, and visual assets for digital product launches.
- Designed and developed responsive frontend interfaces using React.js and Tailwind CSS across 10+ web and mobile application projects.

FEATURED PROJECTS

Karyotica Labs – Brand Experience & Website Revamp | Branding, UI/UX, Next.js
Led the corporate website's visual revamp, improving digital brand consistency, product presentation, responsive layouts, and information architecture. Developed marketing collateral and technical visual documentation for agricultural biotechnology products.

Core Volt Matrix – Enterprise HRMS Platform | Figma, React.js, Tailwind CSS
Designed enterprise HRMS workflows, wireframes, interactive prototypes, and reusable design systems. Developed responsive, component-based frontend interfaces.

Visionicx – Enterprise Mobile Application | React Native, Expo, NativeWind
Designed and developed 40+ mobile application screens covering inventory and tracking workflows within a four-week timeline.

Cross-Device Trade Signal Application | Product Design, Firebase, Supabase
Conceptualized and developed a trading signal platform featuring data-driven interfaces, real-time market information workflows, interactive prototypes, and backend service integrations.

ADDITIONAL EXPERIENCE
